ETHIOPIAN MOTOR SPORT ASSOCIATION

Permanent Race Number

Ethiopian Motor Sport Association (EMSA) would like to announce the new permanent race number system to all race participants. Drivers were individually allocated their numbers at each event previously.

“Fans connect to their favorite drivers via numbers.”

Now drivers get to choose their own number which they will use throughout their career on all events organized by EMSA. The number must be from 1 through 99 (as long as no other driver uses it). Racer can keep this number until he / she retires, at which point that number is “reserved” for two years in case the driver returns to racing. Also the designated race number will be revoked if the driver does not participate for 2 Years on any events organized by EMSA.

Race Number should be printed with Black color on a white background. As per FIA race number standard, the dimension should be as per the picture below.
